You should read this prospectus supplement in conjunction with the prospectus. This prospectus supplement is qualified by reference to the prospectus, except to the extent that the information in this prospectus supplement supersedes the information contained in the prospectus.

The information appearing under the heading "Selling Securityholders" in the prospectus is hereby amended by the addition or substitution, as applicable, of the following:

- (1) Assumes conversion of all of the holder's notes at a conversion rate of 69.1085 shares of common stock per \$1,000 principal amount at maturity of the notes. This conversion rate is subject to adjustment, however, as described under "Description of the Notes -- Conversion Rights." As a result, the number of shares of common stock issuable upon conversion of the notes may increase or decrease in the future.
- (2) Calculated based on Rule 13d-3(d)(i) of the Securities Exchange Act of 1934, as amended, using 38,375,157 shares of common stock outstanding as of February 28, 2005. In calculating this amount for each holder, we treated as outstanding the number of shares of common stock issuable upon conversion of all of that holder's notes, but we did not assume conversion of any other holder's notes.
- (3) An open-ended exempted mutual fund company registered as a segregated accounts company under the laws of Bermuda.

Investing in the notes and our common stock issuable upon their conversion involves risks. See "Risk Factors" beginning on page 7 of the prospectus.
